MEDICAL.

How Destroyed, How Restored Dr. N. S. PENDERY.

Physician and Surgeon No. 24 1-2 E. Washington St.

IN CONNECTION WITH THE GENERAL PRACTICE of Medicine, I treat by a new and reliable medium and with the happiest results, all forms of diseases of the Nervous, Seminal and Urinary and Sexual systems. Young men with hollow cheeks and pallid countenance telling in fearful language the silent working of some formidable disease undermining your constitution, memory and reason, hurrying you to a premature death, re-flect while reason holds sway and avail yourself of a treatment that dissipates the slightest disease, and

cures the harrassing weakness and other causes of serious difficulty and perpetual annoyance.

Spermatorrhora, Seminal Weakness, Nocturnal Emis sions, Sexual Debility, Impotency, Effects of Self-Abuse. FIRST THREE MONTHS of Pregnancy, as they are and their results-Inability to Consummate the Marriage Contract, Mental and Physical Prostration, Epilepsy, Insanity and Consumption.

"The foe, Like a staunch murderer, steady to his purpose, Presses him close through every lane of life, Nor misses once the track, but presses on, Till forced at last to the tremendous verge, And at once he sinks."

Likewise, I will guarantee a radical cure of Syphilis, Gonorrhoea and Gleet, in all their stages, entirely re-moving from the blood the last spark of these terrible diseases that so gradually burn up the fountain of lif Diseases and Conditions Peculiar to

Females.

The beauty and extreme delicacy of the female organization, to say nothing of its physiological characteris-tics, are sufficient indications that it is subject to forms of disease and modifications peculiar to itself. The physician of the present day does not encounter any to the truth of this assertion the melancholy deaths by consumption bear ample witness.

ment Richmond ward ordered at once.

Richmond papers still express the belief that Grant will attack Lee's lines around Richmond as soon as the ground will permit.

The rebels believe that Grant has sent nearly all his cavalry from the armies of the Potomac and James to Gen. Sheridan in the Shenandoah valley.

LET THOSE WHO HAVE DOUBTED

At the American Dispensary we treat by a new method, and with the happiest results, Prolapbe, read the following certificate frem gentlemen well known in this community, and doubt no more.

Its general introduction into the army will save the lives of thousands of our soldiers:

Louisville, June 3d, 1863.

We, the undersigned, have seen the good effects of Dr. John Bull's Cronsumption bear ample witness.

At the American Dispensary we treat by a new method, and with the happiest results, Prolapsus Uteri, (falling of the womb,) Eruptions of the Skin, Chlorosis, or Green Sickness—characterized by yellowish, dirty green pallor of the Menses; Dysmenorrhea, or Retention of the Menses; Dysmenorrhea, a painful and difficult flow of the Menses; Menorrhagia, or profuse Menstruction of the Menses; Menorrhagia, or profuse Mensental Mensental Science of the Mensental Science of tion of the mucus-generally white, or nearly coloress Coffee, Sugar,

and transparent.

Reader, I have given you a class of diseases that are met with in Females of all ages, whether married or unmarried; and to married Females would say that there are many other forms of diseases peculiar to your sex-diseases of Pregnancy, Parturitien, and Lactation, of which space will not admit an elucidation. I omit it for the council chamber, adding but one more disease to this list, and that is a formidable one-Ulceration of the body of the Uterus.

If you are afflicted with organic weakness, or any as

semblage of morbid phenomena of this character, yes have no time to spare, but at once apply for med cal aid. If too late to arrest the disease, it is at least possi ble to palliate the symptoms, and thus smoothe the pathway to an untimely grave.

In a majority of instances these diseases have made considerable progress before the patient becomes alarmed. In some cases an emaciation is the first indication that attracts the attention of the patient's friends. And

here, reader, let me call your earnest attention to the fearful significance of the word "wasting." It not only constitutes the leading feature, but the earliest and mest ominous symptoms of Consumption, examples of which are invariably met with in young ladies who are Dye-Stuffs, gifted with high intellectual endowments, refined accomplishments, and eyes flashing with unnatural brilliancy-not regarding these indications as being those of incipient disease, but those of personal charms.

"Consumptions' cheek ne'er looks more pure, And lovely, than when past all cure, And yet that bloom, so fresh se still, Has lent its fleeting aid to kill, And speaks, to those who watch its hue, Of s ckness, death and suffering too; Though who, just viewing aught so fair.

Could dream that death was there?' Address P. O. Box 1264. IFOffice hours from 8 A. M. to 4 P. M. Room No. 24%, East Washington Street, Indianapolis, Indiana. febl6-dly
